

Tripple Ping-Pong

Three-way Table Tennis / Three-way Ping-Pong

- Table Height: 76 cm. (30 inches)
- Table Diameter: 274 cm. (9 feet)

- Net Height: 15.25 cm. (6 inches)
- Net Overhang: 15.25 cm. (6 inches)

A steel hole is in the center of the table for inserting the center rod/support for the Tripple Net.

In other words it is a round Ping-Pong table divided in 3 courts, each court is divided in two half-courts for doubles play.

Otherwise the table, net, pad, ball and specifications are the same as the international Ping-Pong standards. Only that 3 people play at once. A slower ball and pad would be advised obviously.
